CYRIL BENHAFED

Senior Data Scientist

Senior Data Scientist specializing in machine learning and MLOps. 8+ years in analytics and predictive modeling (churn, scoring, recommender systems). Expert in workflow industrialization (Databricks, CI/CD) with focus on measurable business impact. Previous data/CRM team management experience. Passionate about knowledge sharing (open-source, mentoring).

PROFESSIONAL EXPERIENCE

Cegid
Data Scientist — 2022 – Present

- Designed and deployed predictive models (lead scoring, churn, recommender) improving conversion and retention.
- End-to-end industrialization: LLM/NLP workflows, open data integration, CRM automation (Databricks, MLflow).
- Implemented MLOps best practices: CI/CD, APIs, performance monitoring.

Cegid
Head of Marketing Data — 2020 – 2022

- Managed data/CRM team (4 people): hiring, skills development, project coordination.
- Built predictive models for marketing optimization (campaign ROI, lead scoring).
- Led strategic CRM initiatives, aligned with marketing/sales leadership.

Cegid
Pricing Strategist — 2019 – 2020

- Data-driven pricing strategies based on modeling and behavioral analysis.
- Deployment and monitoring with top management, direct revenue impact.

SNCF Connect & Tech
Business Analyst - Performance & Analytics — 2016 – 2018

- Analytics lead for €4B commercial portfolio (sales KPIs, web analytics).
- Financial modeling and predictive analysis for strategic decisions.

Disneyland Paris
Industrial Engineer - Analytics & Pricing — 2010 – 2016

- Predictive models for operational forecasting (call center) and transport pricing optimization.
- Automated field data collection (Palm device programming, 50+ surveyors).
- Quantitative analysis supporting strategic pricing and operational optimization.

EDUCATION

Toulouse INP-ENSIACET
Engineer's degree in Industrial Engineering — 2007 – 2010

- Specialization in process optimization, statistics, information systems.
- Exchange semester (University of KwaZulu-Natal, logistics & supply chain).

LANGUAGES

French : Native
English : Professional proficiency
Spanish : Basic notions

SKILLS

Programming
Python, R, SQL, Bash

MLOps & Cloud
Databricks (certif. in progress), MLflow, CI/CD, APIs, Git

Data Science
Predictive models (churn, scoring, recommender), Segmentation, NLP / LLM

Business
Pricing strategy, CRM & marketing analytics, Team management

CERTIFICATIONS

Professional Scrum Master I
Databricks Certified Machine Learning Associate (in progress)

TEACHING & MENTORING

School talks : Tech careers, Digital Collage workshop
Internal training : Programming, DS/MLOps best practices
Community : Active participant in data/tech meetups (Lyon)

INTERESTS

OpenStreetMap contributor • Morocco charity rally (4L Trophy) • Hiking & travel

CNAM

Finance & Economics track (Bachelor + Master 1) 2012 – 2015

- Evening classes, focus on economics and financial markets.
