CYRIL BENHAFED

Senior Data Scientist

Senior Data Scientist with expertise in machine learning and MLOps. Experienced in designing and deploying predictive models (churn, segmentation, recommender systems) and industrializing workflows with Databricks, Python/R, and CI/CD. Combining technical skills with business insight, I deliver measurable large-scale impact.

PROFESSIONAL EXPERIENCE

Cegid
Data Scientist — 2022 – Present

- Predictive models (lead scoring, churn, recommender).
- Industrialized workflows (LLM/NLP, open data, CRM).
- MLOps practices: CI/CD, deployment, monitoring.

Cegid
Head of Marketing Data — 2020 – 2022

- Managed data/CRM team (4 ppl).
- Developed predictive models for marketing performance.
